

# FLY FUSION™ PENTOP COMPUTER

## THE ULTIMATE HIGH-SPEED HOMEWORK SYSTEM

Meet the FLY Fusion Pentop Computer, the only pentop platform to offer a complete set of high-speed homework solutions and innovative note-taking applications for students of all ages. This next-generation FLY™ system harnesses the same sophisticated Anoto technology as its predecessor, enhanced by PC connectivity, four times the memory, on-the-go calculating functionality, and a 1,000-word Spanish dictionary. Best of all, students can upload handwritten notes and drafts, digitizing them instantly into Microsoft Word documents or emails. A broad software portfolio—featuring both curricular and entertainment applications—will be available at retail and through the new FLY World™ Download Store. A sleek new design completes this affordable package, making the FLY Fusion Pentop Computer the most powerful productivity tool for middle and high school students.

### FLY FUSION PENTOP COMPUTER

**NEW! AVAILABLE AUGUST 2007; AGES: 10 TO 16 YEARS; MSRP: \$79.99**

LeapFrog's FLY Fusion Pentop Computer is designed to enhance homework productivity by providing easy access to subject information for faster problem solving and real-time homework support. New for 2007 is a sleeker design and improved hardware capabilities. Students can now upload notes and drafts they write on special FLY paper to a PC and convert them to Microsoft Word or email documents, in addition to receiving on-the-spot help as they write. Users can also download useful applications for their FLY Fusion platform, as well as store and play an album's worth of MP3 files.

### NEW! FLY FUSION HOMEWORK APPLICATIONS

LeapFrog's FLY Fusion Pentop Computer provides homework help through interactive, step-by-step applications for students facing challenges in math, algebra, writing, language arts, and even Spanish and French language translation.

### FLY FUSION FASTCOMP™ MATH PRO

**AVAILABLE FALL 2007; MSRP: \$14.99**

To solve math problems quickly, students need only write down equations to hear answers in an instant, using LeapFrog's FLY Fusion FastComp Math Pro software. Users can convert fractions into decimals or improper fractions into mixed numbers, or find the area, perimeter, and circumference of a figure, with the power of a spreadsheet in the palm of the hand.

### FLY FUSION ALGEBRA

**AVAILABLE FALL 2007; MSRP: \$29.99**

Like a personal tutor, the FLY Fusion Algebra software for the FLY Fusion platform coaches middle school students through writing and factoring single variable equations, graphing systems of linear equations, or solving quadratic equations. FLY Fusion Algebra also helps with simplifying and factoring expressions and graphing lines and parabolas. The software also features a FLY Fusion Algebra FLYware™ control card featuring shortcut buttons, glossary terms, and a quick start guide.

## **FLY FUSION WRITING**

**AVAILABLE FALL 2007; MSRP: \$29.99**

Expanded for the FLY Fusion platform, LeapFrog's FLY Fusion Writing software gives users the power of a word processor on paper. Students can develop the skills necessary for effective writing by using tools for checking grammar and spelling as they write, as well as following hints for structuring their thoughts for more successful essays, stories, and poetry. And they can simply upload essays or notes to the PC and convert them into a Microsoft Word document.

## **FLY FUSION FRENCH TRANSLATOR PRO**
